

Curriculum vitae

I hereby agree for my personal data, included in my job application, to be processed in line with the needs of recruitment, in accordance with the Law on Personal Data Protection.

Kuzmitskyi Maksym

Date of Birth: 4 Feb 1983

Location: J. Federowicza 5, 30-392, Cracow, Poland

Contacts

Phone: +48 791 023 209

E-mail: maximusft@gmail.com

Goals and expectations

Job type: Permanent

Schedule: Part/Full time

Relocation: Ready for relocation

Scope: IT

Position: Tech/Team Lead / Frontend Developer

Executive Summary

- I have more than 17 years of active work in the development of web projects on different technologies. For the last 9 years I have been actively immersing myself in SPA.
- The main tool is Javascript (mostly React and its space) plus everything you need for the front (HTML, CSS, ...).
- The important skill for me is a lot of experience in creating a Frontend from simple design to implementation. A deep understanding of the server side of the application.
- Understanding the product maintenance processes at the search engine optimization (SEO) and Marketing level allows me to anticipate vulnerabilities and eliminate them at the initial stages.
- Understanding of product planning processes. Work in Agile (Scrum & Kanban) and not only (if the situation forces) processes. Meeting deadlines for tasks.
- Experience in creating mobile applications (Ionic, Flutter)
- Great experience in soft skills, which gives a great bonus to teamwork, even if I do not get a leading position. The ability to work with people, help them and give them the opportunity to realize themselves in time.

Experience and projects

May 2025 – Present, Frontend developer

Company: Luxoft/DXC | **Client:** ESLE ES Levetidsforlaengelse

Product: A government project for filing documents with the tax office in Denmark.

Responsibilities: Contributed to the development of new front-end functionality, including a dedicated section for managing and formalizing company changes. Oversaw quality assurance and UI polish, ensuring the application met release standards and delivered a seamless user experience.

Technologies: React environment, TypeScript

July 2023 – March 2025, Front Architect, TechLead Frontend developer

Company: Luxoft/DXC | **Client:** Procter & Gamble

Focus: 50% Engineering | 50% Leadership

Product: Development of an internal MVP product for the company. Updated approach for managing Products-Promotions-Settings bundles.

Responsibilities: As a Frontend Architect, I specialize in crafting intricate Low-Level Design, ensuring the technical robustness and scalability of front-end architectures. In parallel, I lead a team of talented Frontend Developers, guiding them through complex projects and fostering an environment of innovation and collaboration. My role involves strategic planning, design implementation, and team coordination to deliver exceptional digital experiences.

Technologies: React environment, TypeScript

July 2022 – August 2024, TechLead FullStack developer

Company: Assembly Canada | **Client:** Honda Canada Inc (Group of The Honda Family: Acura, Motorcycles, ATV, SXS, Power Equipment, Marine, Engines)

Focus: 70% Engineering | 30% Leadership

Achievements: Working in the company as a technical leader, the approach to the structure of all sites that the company used was changed. A unified environment was created to launch a content management system based on Sitecore. Created the concept of storing basic and complex Components (ReactJs) that are used to build production sites. The SSR system has been revised to optimize the performance of search engines. A unified design system for all products is being created.

Responsibilities: Development and maintaining an application and product sites, development frontend and backend components. Deploy and releases support

Technologies: React environment, NodeJS, JavaScript, Sitecore (.Net)

May 2018 – June 2024, FullStack developer

Company: BOX-Catering

Responsibilities: Website/Admin development, implementation and integration with CRM and other systems. Synchronization between different services. Creation of a service for creating commercial proposals for the marketing department. Website support and development. Implementation of SEO requirements and Accessibility.

Technologies: PHP/WebAsyst, HTML/CSS (SCSS), JavaScript

July 2022 – September 2023, Frontend developer

Company: Luxoft | **Client:** UBS Group AG/UBS Group SA/UBS Group Inc

Product: Workbench. A project where only I worked as a frontend developer. I upgraded the legacy application to the current state. Updated libraries and code dependencies.

Product: 1Place. Part of the development team.

While working with the client, I implemented the following improvements for the application:

- Divided of a single storage system for different types of subclients.
- Implemented redux/toolkit library and corresponding changes in the current application to use RTK Query

Responsibilities: Development and maintaining internal applications, development of frontend components. Deploy and releases support

Technologies: React environment, TypeScript

May 2022 – September 2022 FrontEnd developer

Company: Kyndryl

Achievements: Using the current design, a comprehensive approach was created to reuse components managed by AEM. Development and maintaining an application, preparing frontend components, pages. **Technologies:** HTML/CSS (SCSS), React, JavaScript, AEM

January 2021 – May 2022, Team Lead FrontEnd/Technical PO

https://www.motorolasolutions.com/en_us.html

Company: Motorola Solutions

Focus: 60% Engineering | 40% Leadership

Achievements: I joined this project as Team Leader for FrontEnd Developers and took on another related position as Technical Product Owner. During this time, we were able to completely change and unify the design system for all projects of the company. Create components that are reused by all adjacent commands. Created a universal service for working with Google Analytics

Technologies: Adobe AEM, React env, NodeJS, NextJS

February 2018 – December 2020, FullStack Engineer at Motorola Solutions

<https://myview.motorolasolutions.com>

Company: Motorola Solutions

Achievements: The main responsibility is the development and support of the application (React, Node.js, Postgres) for internal clients. A feature was the created centralized system that combined more than 17 external services into a single system with which our application already worked.

Technologies: React env, Node.js, Postgres

Professional Skills/competencies

Category	Competence	Level
Programming languages	Javascript	Good experience
	Nodejs	Good experience
	PHP	Good knowledge
	Dart	Little experience
Frameworks/ CMS	React, Redux, other libs	Good experience
	Angular JS (v1.4) / Angular (v2+)	Average experience
	Next.js	Good knowledge
	Vue.js, Svetle	Little experience
	Hapi (JS)	Good knowledge
	Prisma (ORM JS)	Little experience
	Express JS	Little experience
	Adobe AEM	Average experience
	Webasyst (PHP)	Good experience
	Bootstrap CSS	Good experience
	jQuery	Good knowledge
	Wordpress (PHP)	Good knowledge
Databases	MySQL	Good knowledge
	PostgreSQL	Good knowledge
	MongoDB	Little experience
Other	Git	Good knowledge
	REST	Good knowledge
	Elasticsearch	Little experience
	Jenkins	Little experience
	Redis	Average experience
	Nginx	Little experience
	AWS	Little experience
	Heroku	Average experience
Soft	Planning & Organization	Good knowledge
	Team Leader	Good knowledge
	LeaderShip	Good knowledge
	Coordination of activities and resources	Good knowledge
	Agile (Scrum & Kanban)	Good knowledge
	Psychology	Average experience
Marketing	Search engine optimization (SEO)	Good knowledge
	Marketing	Good knowledge
	SMM	Good knowledge
Design	Web Design	Good knowledge
	UX/UI	Good knowledge
	Figma	Good knowledge
	Photoshop	Good knowledge
	Corel Draw	Good knowledge
	Illustrator	Average experience

Education:

Sep 2000 – May 2006 – Odessa, Ukraine

Engineer of information technology – Odessa State Academy of Refrigeration (OGAH), Odessa (Ukraine)

Languages:

Russian (native), Ukrainian (native), English (upper Intermediate), Polish (upper Intermediate)
